EDUCATION

Manav Rachna International Institute of Research and Studies

Aug 2023 – Jun 2027

B.Tech in Computer Science and Engineering – **CGPA: 7.9**

Faridabad, India

St. Angel's Sr. Sec. School

Class XII (CBSE) **80%** | 2022 Class X (CBSE) **83%** | 2020

Gurugram, India

SKILLS

- **Programming:** Python, SQL, C++
- **Machine Learning:** Supervised & Unsupervised Learning, NLP
- **Libraries:** NumPy, Pandas, Scikit-learn, TensorFlow
- **Full Stack Development:** HTML, CSS, JavaScript, Flask, Node.js, REST APIs
- **Data Analysis:** EDA, Data Visualization
- **Tools:** Jupyter Notebook, Google Colab, Git
- **Databases:** MySQL, MongoDB

PROJECTS

AI Resume Screening System (Full-Stack + AI) | Python, NLP, BERT, React, Node.js, MongoDB

GitHub

- Built a full-stack AI system to automate resume screening using NLP and BERT-based semantic matching for improved candidate ranking.
- Developed RESTful APIs (Node.js) and a React frontend for resume upload, processing, and visualization.
- Implemented a scalable pipeline for PDF parsing and structured data extraction using NLP techniques.

AI Health Assistant | Python, NLP, Machine Learning, Flask, Node.js

GitHub

- Built an AI-based health assistant to predict possible conditions from user-input symptoms using NLP and machine learning techniques.
- Applied TF-IDF and classification models to generate top-3 disease predictions with confidence scores and risk assessment.
- Developed REST APIs (Flask/Node.js) and integrated a chatbot-style interface for real-time interaction.

INTERNSHIP

Ybi Foundation

Jun 2025 – Jul 2025

Data Science Intern

Remote

- Developed a **House Price Prediction System** using machine learning models to estimate property prices based on housing features.
- Built a **Loan Approval Prediction System** to classify loan applications using supervised learning techniques.
- Performed **data preprocessing, feature selection, and model evaluation** using Python libraries including Pandas, NumPy, and Scikit-learn.
- Applied **regression and classification algorithms** to analyze datasets and generate predictive insights.

CERTIFICATIONS

- Machine Learning using Python — Infosys Springboard
- Natural Language Processing for Speech and Text — LinkedIn Learning
- Internet of Things (IoT) — Infosys Springboard
- Programming Foundations: Object-Oriented Design — LinkedIn Learning
- Software Design: Modeling with UML — LinkedIn Learning
